Team: I have completed the SKK-Dae Eui Lee-Hot or R 10-23-12-not coded 00008 batch (I have moved on to the SKK-Dae Eui Lee-Hot or R 10-23-12-not coded 00009 batch). The majority of docs that I'm seeing have been foreign language, and have not contained enough English to aid in determining level of relevance or appropriate Top Level issues. However, there have been some relevant/hot docs mixed in, mainly fitting into the Pricing and Impact (the Commodity/Interchangability and Profit sub-issues, specifically) Top Level Issue categories. I've summarized some examples below. Thanks, and have a good weekend.
